

HOME WATER KIT

TAP WATER WITH GREAT TASTE

HOME WATER KIT

TAP WATER WITH GREAT TASTE

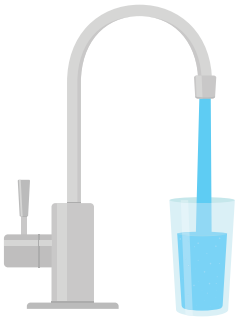
Home Water Kit improves the taste, odor, filtration or concentration of sediments in your water. With a simple Installation of the kit, you just add the cartridge that suits your needs.

WHY TAP WATER

First of all, drinking tap water is a very simple way to reduce your eco- logical footprint and take care of our planet. By installing 1 filter at home you replace up to 10 000 plastic bottles. Because tap water is deliv- ered directly to your home, you no longer have to lug around bottled water and garbage bags. And last but not least, tap water is good for your wallet.

FRESH AND GOOD TASTE

The Home Water Kit assures high-quality, fresh and good tasting drinking water. The cartridge removes polluting elements,odors and off-tastes from your tap water, but preserve natural minerals. In this way, the filters turn your tap water into a natural source of drinking water.



CONVENIENCE

With a simple installation, you connect the filter to the existing water pipe so no additional faucet is needed. The kit requires limited maintenance, as the cartridge only needs to be replaced once a year. Enjoy 100% fresh and good tasting water, straight from your own tap.

REMOVES ODORS & OFF-TASTES

The Home Water Kit removes unpleasant odors and off-tastes to turn your tap water into a natural source of drinking water. In addition, by using filtered water, you will enjoy the full flavor and aroma of coffee, tea and other drinks based on water even more.

ECO-FRIENDLY

The Home Water kit is an ecological and convenient alternative to bottled water. By installing the filter at home, you help eliminate up to thousands of plastic bottles that are transported through our streets every day, which in turn reduces greenhouse gas emissions.

GREAT PERFORMANCE

The attractive and elegant design of the Home Water Kit Cartridge goes hand in hand with its great performance. When you install the filter, there is hardly any pressure loss. In addition, the good flow rate of your tap water is maintained.

USER-FRIENDLY

With Home Water Kit you get fresh and clean water straight from your tap. The kit is installed on your existing kitchen faucet. Just replace the cartridge once a year. On top of that, you don't have to lug around bottled water anymore and you save money.

SILVER CARTRIDGE

The Silver Cartridge has an activated carbon block filter used for dechlorination and purification of drinking water. The filtration reduces and removes chlorine content, organic compounds, odors and off- tastes from your tap water. In addition to the activated carbon block filter, SILVER ions technology is used to give bacteriostatic action to the filter. The filter needs to be replaced at least once a year, depending on its capacity.

- Improves the taste and odor of your water
- Dechlorination and purification of drinking water
- Reduces water turbidity
- Reduction of microplastics
- Prevents bacterial growth
- 0,5 micron filter
