SOFTENER

HOAK

The key to success !

HOAK is high quality, reliable and technology driven

The savings realized thanks to the HOAK softener alone will justify your investment.

DEAR CUSTOMER

Water is essential to human life. That is why we cannot underestimate the importance and necessity of efficient water treatment to increase both your comfort and the comfort of your family. The installation of one of our softeners will:

- Maintain the efficiency of your central heating system, while saving energy.
- Reduce the maintenance and repair costs of the hot water appliances (washing machines, dishwashers, coffee machines, shower heads…).
- Reduce the consumption of soap, detergent and shampoo (which is good for the environment).
- Help clean glass surfaces more easily.
- Create a sense of well-being after bathing.

- Long-life quality valve with proven piston technology
- Easy interface: blue drop-down menu
- Easy maintenance
